REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1, 7 – 9 are allowable over prior art of record. The prior art of record failed to teach a transmission apparatus comprising: an arrangement determiner that determines a constellation mapping position indicating an arrangement position of each symbol data in the IQ plane when transmission data is retransmitted so that the constellation mapping position becomes different from that in a last transmission; a data assigner that assigns transmission data to each symbol so that fine each symbol data with the same amplitude is arranged in the constellation mapping position determined by the arrangement determiner; and a transmitter that transmits the transmission data that is assigned each symbol in the data assigner wherein: the arrangement determiner rotates the constellation mapping position of the last transmission by a predetermined angle that is common to all constellation mapping positions along a circumference of a circle with an intersection point of the I axis and Q axis as a center in the IQ plane to determine the constellation mapping position when the transmission data is retransmitted as claimed in independent claim 1 and similarly claimed independent claim 7. Thus claims 1 and 7 – 9 are novel and non-obvious over prior art of record.

Claims 1 and 7 - 9 renumbered as 1 - 4 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
